the first academic work dedicated to the study of computer games in terms of the stories they tell and the manner of their telling applies practices of reading texts from literary and cultural studies to consider the computer game as an emerging mode of contemporary storytelling in an accessible readable manner contains detailed discussion of narrative and realism in four of the most significant games of the last decade tomb raider half life close combat and sim city recognises the excitement and pleasure that has made the computer game such a massive global phenomenon an electronic edition of this book is freely available under a creative commons cc by nc nd licence

jesus parables they are widely known or at least often referenced but does that mean they are well understood having slipped into the lingua franca of our day we could be missing some of what he was communicating if familiarity breeds contempt perhaps our sense that we know these stories insulates us from what jesus was saying about life with god if jesus intended his parables to be much more than helpful illustrations or memorable word pictures we might need to hear them in a fresh way we could be overlooking what is essential if we read his parables simply as clever stories like a chef who seasons the meal in such a way that the distinctive flavors of each element is enhanced brian invites the reader into an invigorating and fresh taste of what jesus says in his parables reading each parable attentive to jesus own words and the context in which these stories are found you ll hear the voice of the savior in renewed ways no longer will you think of his parables as clever stories but you ll find them to be life giving words from jesus

this book is about evolution as opposed to what it really says and what it really means there is no proof facts or evidence to support evolution and for the most part the scientists that support this ideology have no real foundation from on which to stand this book instructs and gives proof facts and evidence that shows evolution is nothing more than someone s belief in the face of reality one chooses the perception of reality this is fine within their vernacular however in the real world one needs tangible pfe in order to excavate one s ideas other wise they are only engaging in religious enthusiasm even though that s fine one can believe in what one wants to however reality is unlike the perception of reality this book chooses not the latter
